

EYG home improvement glazing solutions ...come on home

THE COMPOSITE DOOR COLLECTION

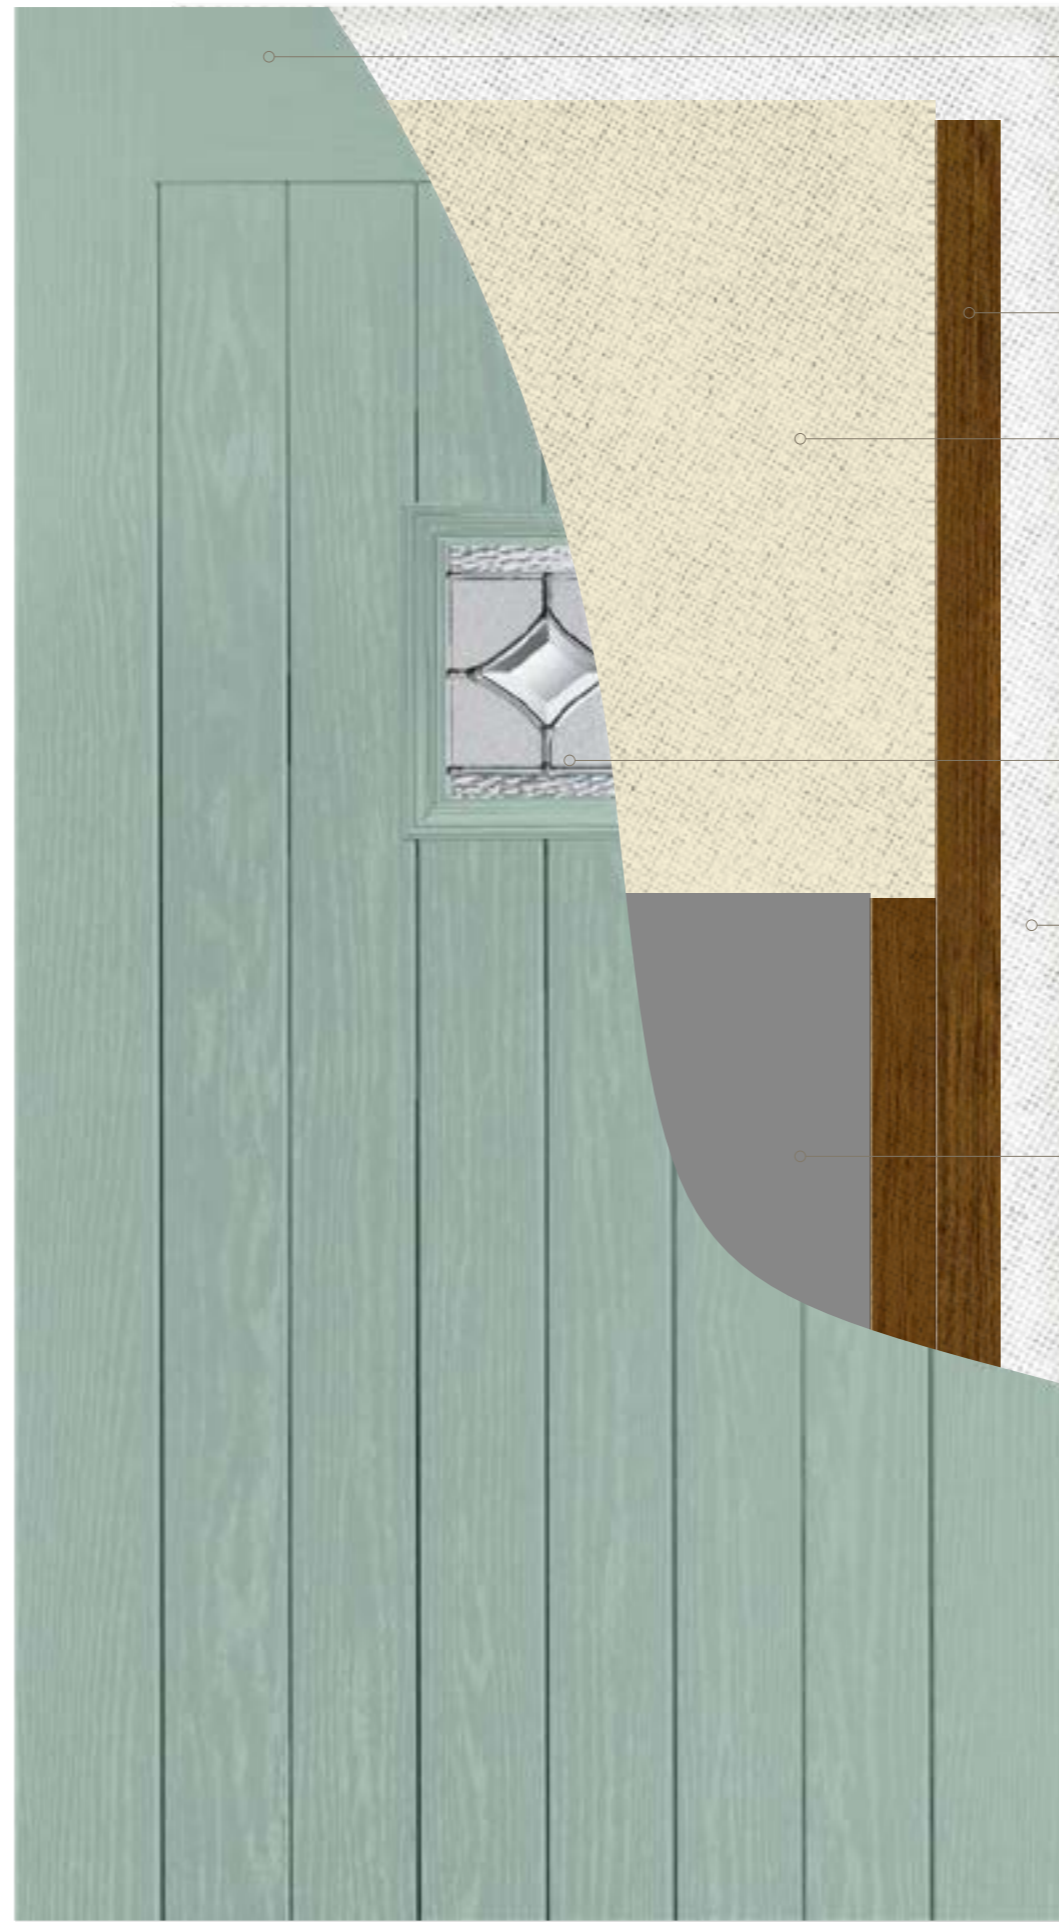

We are very proud of our door's credentials and its ability to meet the most demanding technical requirements.

With two decades of experience and a dedication to excellence, we have earned the trust of installers and homeowners across the UK.

Our doors have been designed to keep your home safe and snug, reflecting our commitment to quality craftsmanship and your peace of mind.

Head to
eyg.door-designer.co.uk

for available glass styles
and configurations

Quality you expect

We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives an EYG door its prestigious authentic and premium aesthetic.

Engineered wood

For improved stability.

Foam filled core

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum by keeping warmth in and draughts out. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Decorative glass

Triple glazed and laminated as standard 24mm glass units for enhanced security and peace of mind.

Water-resistant composites

Water-resistant polymer composite rails help keep water absorption at bay, which helps prevent a bowed door; often associated with timber core alternatives.

Reinforced core

The reinforced central board gives you extra reassurance that your EYG door is both solid and secure and has earned our door its reputable 'Secured by Design' status.

safe
and
snug

Come home to the most energy efficient door on the market.

There are many ways to improve the energy efficiency of your home, actions which can reduce energy bills and create a warm and comfortable home. Amongst the most common methods are adding wall and loft insulation and draught-proofing.

But did you know that low performing, ill-fitting doors and windows can also cause heat loss and subsequently impact energy usage?

That's why we have developed the most thermally efficient entrance door on the market.

When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

* Based on indicative calculations of the door core.

Investing in a new high-performance EYG door will boost insulation levels and reduce draughts and cold spots, making your home extra warm, enabling you to turn the thermostat down a degree or two!

Plus, there's the added bonus of it being more secure. Oh, and did we mention giving your home enviable kerb appeal!

But don't just take our word for it.

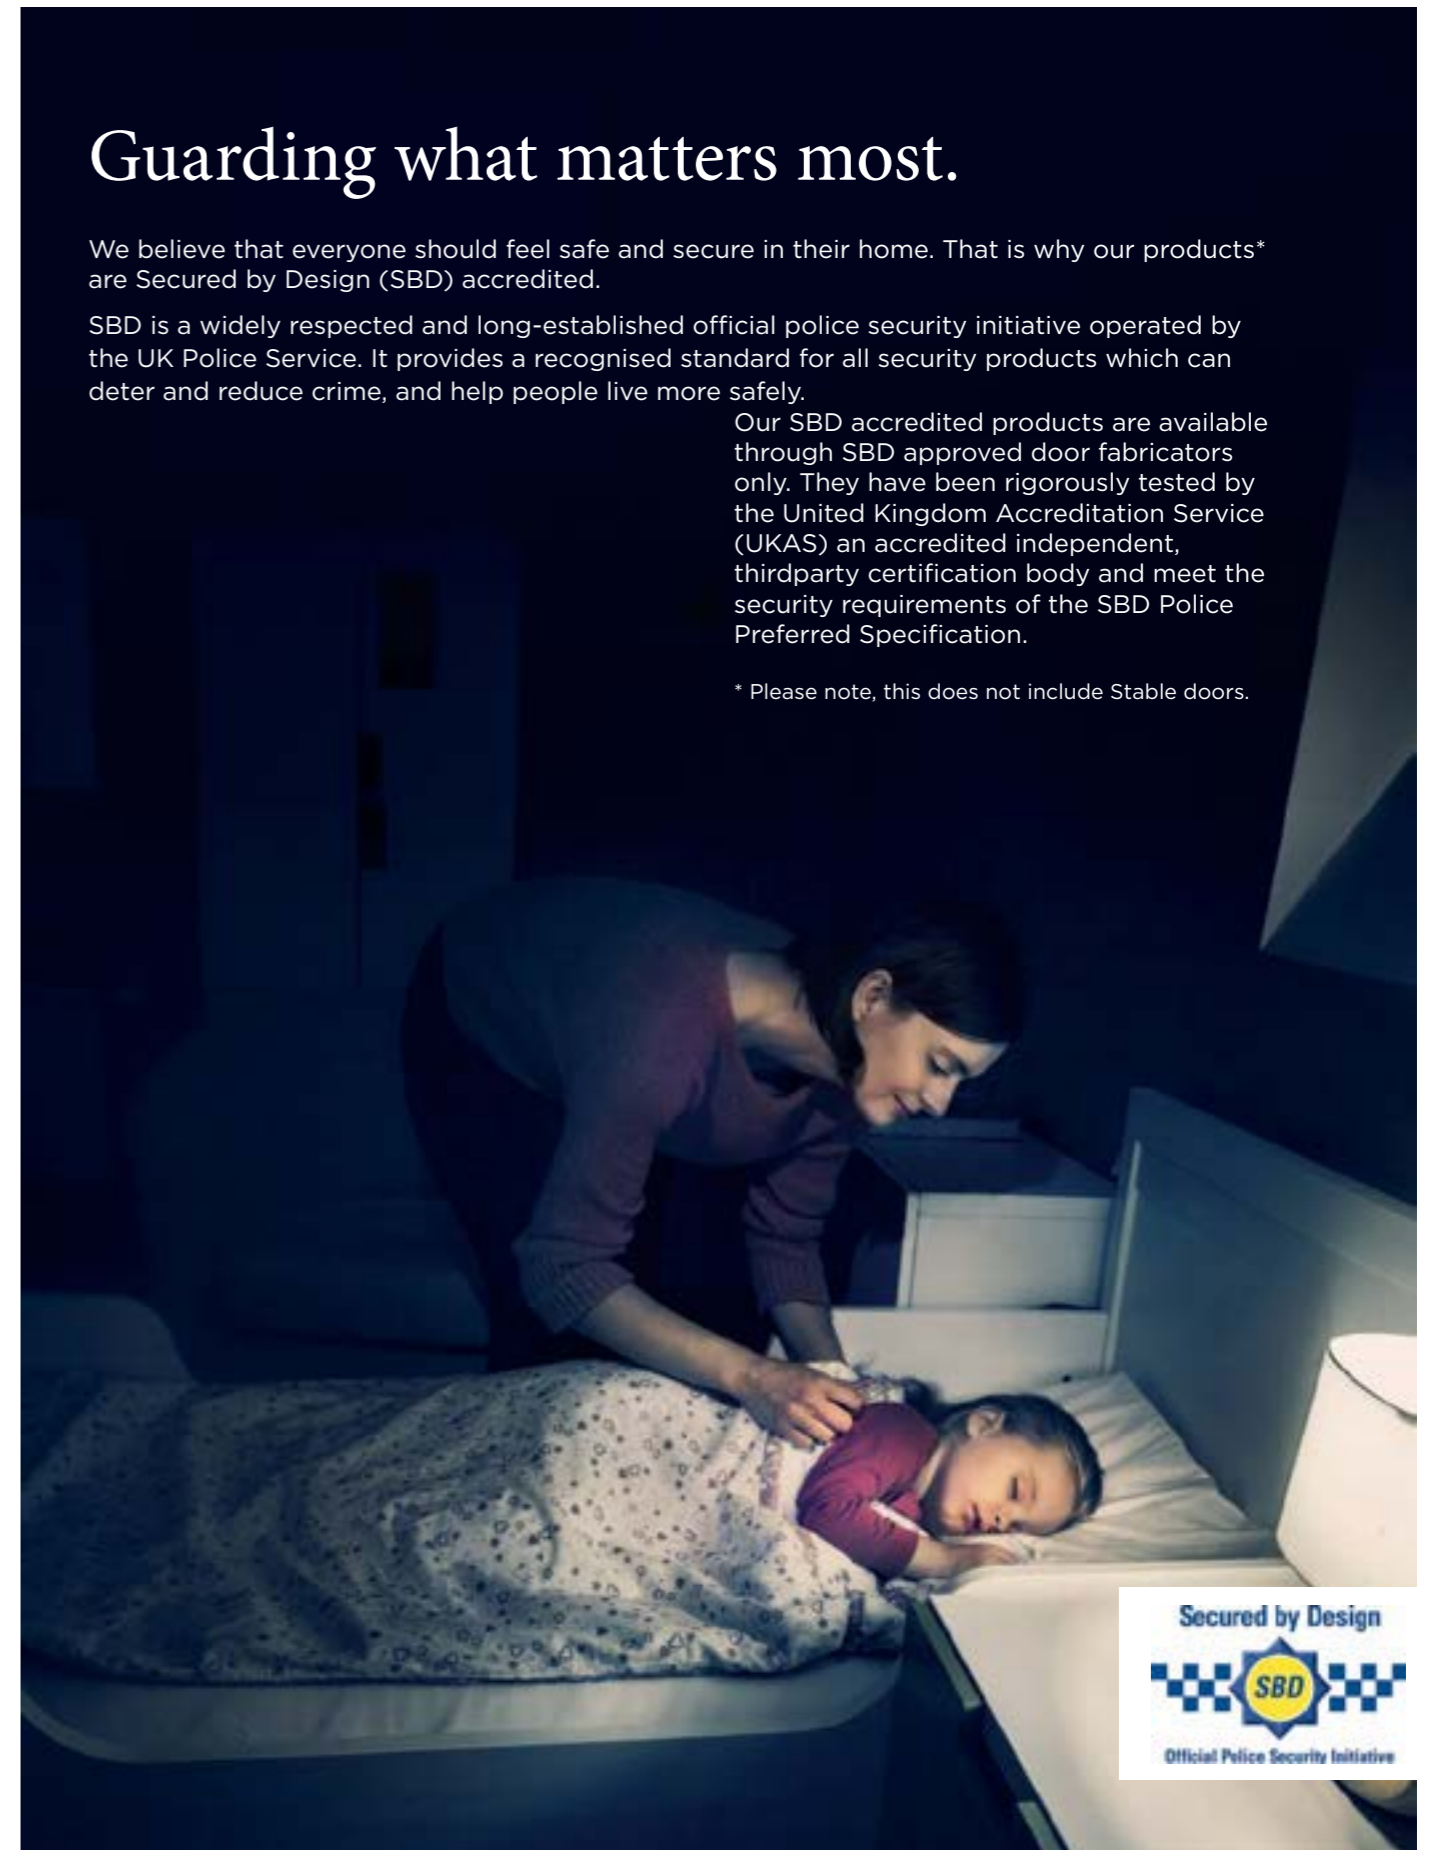

Guarding what matters most.

We believe that everyone should feel safe and secure in their home. That is why our products* are Secured by Design (SBD) accredited.

SBD is a widely respected and long-established official police security initiative operated by the UK Police Service. It provides a recognised standard for all security products which can deter and reduce crime, and help people live more safely.

Our SBD accredited products are available through SBD approved door fabricators only. They have been rigorously tested by the United Kingdom Accreditation Service (UKAS) an accredited independent, thirdparty certification body and meet the security requirements of the SBD Police Preferred Specification.

* Please note, this does not include Stable doors.

The colour palette

Colour has the ability to change your mood, spark an idea and trigger a reaction. We categorise things by colour and we all have our favourites. That's why it's important to choose the right colour for your front door; you are setting the mood for the whole house. Carefully curated in-house, our non-

toxic, odourless, low emission and eco-friendly bespoke paint range offers something different. Discover deeper, richer tones; classic and delicate neutrals; and shades designed to bring joy. You can choose a colour for both inside and out, and they don't need to match.

Choose from our selection or pick any RAL colour!

Colours shown should be used for guidance only as the limitations in the printing process may mean that colours vary from those illustrated. Hardware shown is for guidance only and may vary from that illustrated. Standard colours are available both from stock and as painted product, subject to availability. See Colour Guide on pg. 76 for further information. Stains single side only.

Glass range

What really sets our doors apart from the rest is our exclusively designed glass range.

Only found in our doors, our decorative glass is triple glazed and laminated as standard, complementing our superior quality doors. Our double-glazed options, Chatsworth and Wentworth also maintain the highest quality standards.

Furthermore, every door in our Esprit collection features individually designed glass to suit that specific door style, creating a unique entranceway.

The possibilities really are endless...Remember, you can visit eyg.door-designer.co.uk to see every door, colour, and glass combination in full.

Customer feedback drives our innovation. We're updating our popular triple-glazed range by removing less popular designs and introducing exciting new glass options.

In due course, we will be removing Sierra, Trieste, Bloom, Matrix and Eclipse. These will be denoted★with an asterix throughout the brochure.

NEW

GRANDEUR COLLECTION

FROM PREMIUM TO LUXE

Luxury was at the heart of our vision when curating the Grandeur Collection.

Our aim was to establish a range that bestows any home with a sense of opulence while upholding the exceptional quality defined by the EYG brand.

All of our doors are premium. That's fact. But, there's just something about the sound of closing a 70mm door that adds that extra first-rate quality. Take it to the next level and add grandeur to your home with our new and improved collection of double rebated doors; inspired by the elegance and refuge we seek in a beautiful home.

We believe you shouldn't have to sacrifice practicality for style. Our 70mm door is almost 50% thicker and as a result, offers 35% better thermal efficiency than our standard 44mm door. † This collection was built to keep heat in your home whilst still managing your energy usage effectively.

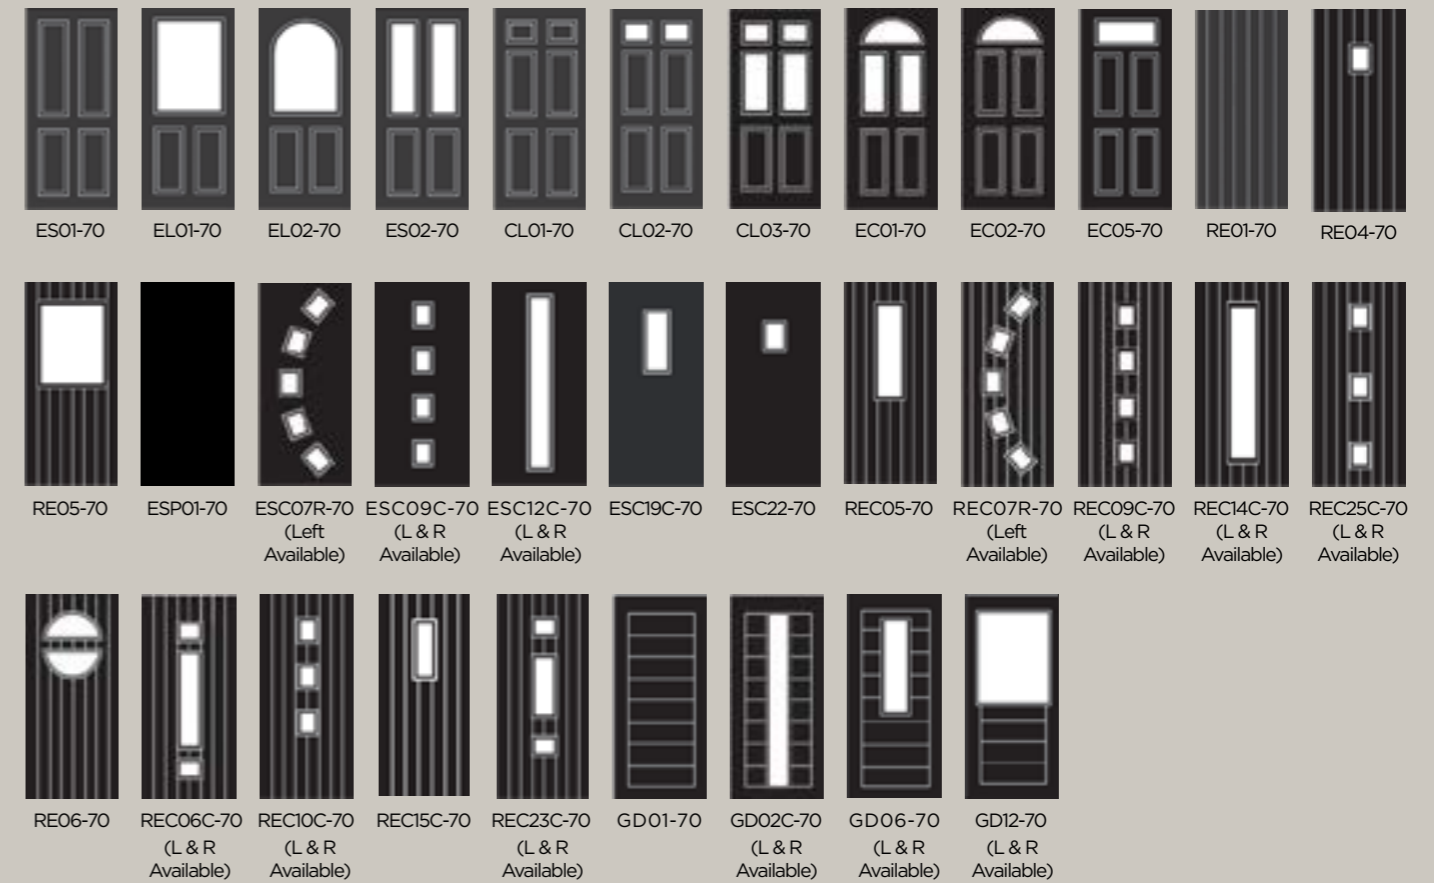

The doors in our Grandeur Collection add an extra level of security[‡] to your home, so you can rest easy knowing that your family remains as safe as it can possibly be.

YOU'LL KNOW
WHEN YOU
HEAR IT.

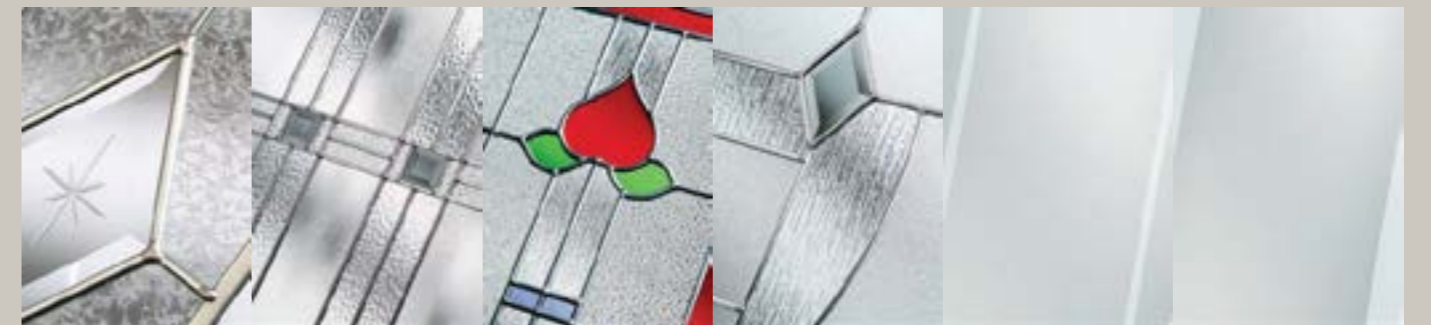

Extended range

Our Grandeur Collection now includes an extended range of 70mm door styles, offering more choice for your customers.

Our 50mm triple-glazed, laminated glass is available in our much-loved Kara Zinc, Kara Brass, Aspen, Edwardian and Monza styles, with new additions, Chatsworth and Wentworth styles now available.

nxt-gen

Our front door protects us and our possessions by keeping our home safe and warm. And all the while, we expect it to look good, and stay looking good whilst we use it every day.

That's why we have developed the next-generation composite door. Our next-gen range combines innovation and simplicity with the performance you'd expect from a modern

composite door.

Characterised by sleek lines and a flush finish, the next-gen range oozes style. A classic front door, fit for modern life.

Make it your own and choose from over 30 bespoke colours and a wide selection of decorative glass. The next-gen range - front doors for modern life.

Enhance your entrance...

Personalise the front of your home with a doormat. Welcome your guests and keep your floors clean!

Signature

A quality front door says a lot about its owner. It makes a statement. It speaks of intent, character and aspiration. Our Signature range does exactly that.

With a more traditional finish, our Signature doors are designed to complement and respect the architecture of your home.

This range is the perfect choice for those wishing to add a touch of classic style and elegance to their home.

With our Signature range there's a door to suit every property; modern or traditional, town or country.

PAGE 14

Technical Guidance

Cleaning and Maintenance

Your EYG GRP composite door has been designed to be easy to maintain. To prolong the life of the surface finish and protect your warranty, ensure sure door remains free of debris and pollution by simply using warm water and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door as this will affect your warranty:

- Abrasive cleaners or scouring pads. Please note that some cleaners are abrasive.
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc.
- High pressure or steam cleaners.

Technical Figures

An EYG GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero.

Decorative Glass Features and benefits:

- Decorative triple glazing
- Obscure double glazing
- The decorative centre pane of the triple glazed unit is sealed within the unit therefore, it is protected from dust and weathering and easy to clean
- 6.8mm glass laminated as standard
- 50mm units available for 70mm doors
- Glass patterns may vary
- Slight bubbles, lines and surface imperfections are all characteristics of glass. They are not to be considered as defects as they add character to decorative glass.

Triple glazed decorative glass diagram

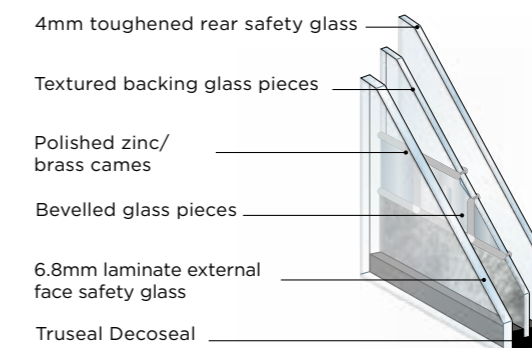

Diagram represents a typical make up of our triple glazed glass. Please contact us for further info
