# The modern, practical, roofing system from EYG

Converts your conservatory into a room for all seasons

**EYG Hybrid**  
insulated roof system

EYG's Hybrid roof combines a solid vaulted roof with glass panels offering a warm and thermally-insulated roof which lets in the light. Ensuring your conservatory will be useable all year round, warm and cosy in the winter, and pleasantly cool in the summer months. The benefits of solid and glass roofs are seamlessly merged, giving you the enormous benefits of creating a beautiful light-filled room which holds its temperature.

- **Add value to your home.**

Create a stylish new living space that will increase your property's value and saleability.

- **Bring your conservatory back to life.**

Turn your tired conservatory into a space which can be used and enjoyed all year round.

- **Installed within days.**

Because it is made to measure, it can be erected in no time and is guaranteed to be a perfect fit every time.
