REASONS TO CHOOSE EYG

Thermally efficient

Boasting an incredible U-value of 0:18, the Rooflite system easily meets current building regulations.

Guaranteed for years

All roof components also come with a 10-year guarantee on, with the tiles boasting a 60-year life expectancy.

Add value to your home

Creating a new living space for all the family will increase the value of your property.

Create all year round spaces

Tiled conservatory roofs will turn tired conservatories into spaces which are useable all day, every day.

All-weather proof

Tried and tested for many years in the USA, Canada and Australia; the roof gives you complete peace of mind in extreme weather conditions.

Made to measure

You can be sure of a perfect fit every time when you buy a bespoke tiled conservatory roof from EYG.

CHOICE COLOURS & MATERIALS

Steel Tiles

Made from lightweight steel, available in a choice of colours.

STYLISH & STRONG ROOFING SYSTEM

See what a difference an **EYG Tiled Conservatory Roof** can make to your conservatory both inside and out.

“We choose EYG as we needed help to secure building regulations and wanted rid of existing plastic roof, which was leaking and draughty. The roof instantly breathed new life back into a room which felt a bit unloved and very underused.”

Mr & Mrs Hodgkinson
Hornsea, East Yorkshire

Save on energy bills

The fully insulated roof design achieves U-values as low as 0.15 – roughly 10 times more efficient than an A-rated window. This exceptional thermal performance minimises heat loss – which translates into reduced energy bills.

Reduced noise and glare

Glass and polycarbonate roofs produce glare in direct sunlight and become noisy during rain or hail showers. **EYG conservatory tiled roof** dramatically reduces these issues so you can use your space undisturbed.

QUICK & EFFICIENT INSTALLATION

You can have an **EYG Tiled Roof** on a brand new Conservatory or Orangery, or retro-fitted onto an existing structure. **Tiled Conservatory Roofs** can be added to any type of Conservatory, even if it was not manufactured or fitted by **EYG**, as long as the frame is strong enough to support it.

Our **Tiled Conservatory Roofs** can be installed in as little as 48 hours. The entire system can be watertight in six hours, a process that has been designed with convenience in mind. This advanced premium-quality roof system has been designed for straightforward hassle-free installation onto your existing Conservatory, so you can look forward to minimal disruption to your home life.

EYG's Tiled Roof system is guaranteed for ten years, with the tiles boasting a 60-year life expectancy. Sit back, relax and enjoy your investment.
